							Testing	Testing	Testing	Packet Pickup and Race

Testing is required for any competitor and for 17-18, U23 and Elite racers team support if that individual is not fully vaccinated per the CDC definition of fully vaccinated. A negative PCR or rapid antigen test for registration/package pickup of the race week is good for the entire period of racing. The testing timeframe depends on when the athlete will register or pickup their race number for the race week.

You may use the testing provider of your choice within the window above. Please ensure results will be returned in time.

The following are local locations that provide antigen testing, it is still up to the rider/riders and support staff to ensure that results will be available at packet pickup.

Odeum Expo Center

Monday - Friday 10 am-6 pm

Anyone can get tested no appointment needed
